PREVAILING WAGE SCALE:

Pursuant to the provisions of the Labor Code of the State of California, the Board of Supervisors has ascertained the prevailing rate of per diem wages in dollars, based on a working day of eight hours, for each craft or type of workman or mechanic needed to execute the proposed contract under these specifications; and it will be required that not less than said rates be paid to all such workmen or mechanics employed or engaged upon the work.

The rates of per diem wages for each of the various classifications of work shall be the herein set forth prevailing rates of per diem wages plus the hourly equivalent of any employer payments for health and welfare, pension, vacation and similar purposes multiplied by eight. Eight hours shall constitute a day's work; it being understood that in the event that workmen are employed less than eight hours per day, their per diem wages shall not be deemed to be that fraction of the per diem wages herein established that the number of hours of employment bears to eight hours.

The contractor shall, as a penalty to the County of Los Angeles, forfeit ten dollars for each calendar day for which he is in default of his obligation to pay the prevailing rates for any workman paid less than the stipulated prevailing rates for any work done under the contract by him, or by any subcontractor under him.

Provided that overtime rates, rate of pay for Saturdays, Sundays and holidays shall apply to those holidays as recognized in the collective bargaining agreements applicable to particular craft, classification or type of workman employed on the project.

Provided that notwithstanding the general provisions contained herein, Guards and Watchmen shall be paid one and one-half times the prevailing rate for overtime (overtime shall be time worked in excess of eight hours per day or forty hours per week), and the prevailing rate for time worked on Saturdays, Sundays and where such time does not constitute overtime.
